Name: Terence Tang

ONID Alias: Tangte

Date: 7/21/2020

Course Project Proposal – Design and publish a website.

Homepage: Introduces myself and the purpose of the webpage as well as presents a top navigation bar to other pages. Contains a contact me section at the bottom that links to my social media and provides a download link for my resume.

Subpage 1 – Places I've visited: Subpage will contain an unordered list of some of the my favorite travel destinations as well as a description of what my trip itinerary included.

Subpage 2 – Best video games list: Subpage will contain an unordered list of my favorite video games, images of each video game and potentially an embedded video of the game's trailer. Each element will also contain description of why each game is awesome (in a scroll box).

Subpage 3 – Awesome Drawings from Jalen (a 9 y.o): Subpage will contain a table with pictures of drawings by the awesome Jalen. Each picture will contain a title and subtext / additional info over hover-over.

Subpage 4 - Website feedback form: Subpage will ask the user to provide some general feedback and a 1-5 rating for things like usability, visual appeal, etc. Feedback will be provided through a form with numerous button selections and text entry boxes along with a submit button. Will be a post request to http://web.engr.oregonstate.edu/~zhangluy/tools/class-content/form_tests/check_request.php.
